MSW

CANDIDATE FOR ASSISTANT DIRECTOR, ADVANCEMENT SYSTEMS & OPERATIONS

Richmond, Virginia

POSITIONING

Nonprofit systems and operations leader with more than ten years across advocacy, government, and housing, and four years as a working Richmond pianist.

I build the infrastructure fundraising quietly depends on. Records people trust. Workflows that hold up in a busy week. Reporting that answers the question actually being asked rather than the one that was easiest to query.

Across ten years in advocacy, government, and housing I have managed constituent data in CRM, designed and documented processes, coordinated work across program, communications, finance, and leadership, and supported colleagues with very different levels of technical confidence. For four of those years I have also been at the piano at The Jefferson Hotel. This position joins the two halves of my working life.

01 • CORE STRENGTHS

Four Transferable Strengths

01

CRM-Supported Data and Reporting

Used EveryAction to capture, tag, and organize statewide constituent engagement. Built outreach lists, follow-up workflows, and event reporting, and tracked turnout, media, partner engagement, and organizing outcomes.

02

Process and Cross-Functional Operations

Built an organization's first federal policy platform and the tracking systems around it. Ran statewide campaign and event operations, held records and deadlines, and coordinated across program, communications, and leadership teams.

03

Coaching and Staff Support

Supervised graduate interns as an MSW field instructor, providing structured coaching, work review, and professional development. Designed and delivered training and systems support for 40 partner organizations.

04

Artistic and Patron Fluency

Contract pianist at The Jefferson Hotel since 2022, performing lobby programming and weddings and handling client communication, contracts, and invoicing. Richmond-based music producer and former School of Rock instructor.

03 • ONBOARDING APPROACH

First 90 Days

Days 1-30 // Learn and Map

Listen to the Advancement and Finance teams, learn Bloomerang's present configuration, map the core workflows and the handoffs between them, and record the definitions already in use.

Days 31-60 // Document and Strengthen

Choose a small number of high-value improvements with the team, document ownership and procedures, agree on shared definitions, and test changes at limited scale.

Days 61-90 // Measure and Plan

Validate reporting priorities against trusted definitions, establish a practical review rhythm with Advancement and Finance, and present a prioritized twelve-month roadmap.
